ABOUT MKAN

1. Majlis Khuddamul Ahmadiyya (MKA), literally meaning 'Association of Servants of the True Islam' and also known as the Ahmadiyya Muslim Youth Organization (AMYO), was founded in 1938 by Hadhrat Mirza Bashiruddin Mahmud Ahmad (ra) and is the youth section of the Ahmadiyya Muslim Community.
2. Consisting Ahmadi members between ages 15 and 40, Majlis Khuddamul Ahmadiyya (MKA) is an auxiliary organization of the Worldwide Ahmadiyya Community, saddled with the task of organizing members of the Ahmadiyya Muslim Jama'at between the ages of seven and forty years to present the peaceful message of Islam to the entire world.
3. Its aims are to train and educate its members, including Atfalul Ahmadiyya, (male children between ages 7 and 15) in the true Islamic teachings, selfless service to Islam, country and mankind at large.
4. Since its establishment in Nigeria in 1972, the Majlis Khuddamul Ahmadiyya Nigeria has established a culture of Service to Humanity, a tradition which is consistent with the Ahmadiyya philosophy – “Love for All, Hatred for None” – by carrying out projects and programmes that benefit the various communities where it is established. The Khuddam operates in 21 States of Nigeria and carry out a number of projects at national, state and local government levels.

AIMS & OBJECTIVES

5. The principal objective of Majlis Khuddamul Ahmadiyya is the moral and spiritual training of youth through a mix of religious and secular activities. It is dedicated to ensuring its members develop and excel in qualities such as piety, honesty, and fair dealing so that they can better contribute to the country in which they live.
6. The activities of MKA are not limited to the Muslim community. It serves the needs of all members of society irrespective of colour, race, religion or creed and promotes interfaith dialogue and co-operation to promote peace and harmony.

SERVICETO HUMANITY

7. MKA Nigeria has a longstanding reputation of working with charities and bringing succour to people affected with disasters. This work ranges from assisting the charities with fundraising to organising charity events.
8. Additionally, MKA Nigeria has been working with the National Blood Transfusion Service for many years and is now a regular donor provider throughout its branches in Nigeria. Blood donation sessions are now held at various mosques belonging to the Ahmadiyya Muslim Community.
9. MKA Nigeria also participates in monthly environmental sanitation exercises across many states of Nigeria.

EDUCATIONAL SERVICES

10. MKA Nigeria has been at the forefront of providing excellent educational services to both its members and nonmembers. It established, in conjunction with other individual Ahmadi members, an elementary school, the Fazl-Omar Nursery and Primary School at Ojokoro Lagos State in 1996 to provide qualitative education to members of the Community. It also organizes free tutorial classes for students preparing for public examinations.

HEALTH AND FITNESS

11. Sports events such as football, Taekwondo, ping pong are held on a national, regional and local basis. At national events, which are rotated annually with different regions given the responsibility of organising them, regions compete against each other for the crown in that particular sport. Apart from the physical competitiveness of these events, and regional or local rivalries, members get the opportunity to meet, network and, most importantly, develop bonds of brotherhood with other members from all around Nigeria. MKA Nigeria also promotes a biennial National Sports Festival.

ISLAM AWARENESS

12. MKA Nigeria is actively engaged in presenting the peaceful message of Islam and removing common misconceptions and misunderstandings about the faith. It firmly believes that tolerance, engagement, interaction and debate are vital to understand the true teachings of Islam. It is involved in a number of programmes ranging from providing Islamic literature to a wide-ranging public. It also publishes a bi-annual magazine Al-'Irfan to educate youth and promote the reading culture. MKA Nigeria also runs a website (www.khuddam.ng) where information about the organization and its activities are updated.

Response to Members Enquiry and Requests: Due to the peculiarity and nature of the department, members usually require explanations and assistance with respect to use of Maalify and the Maal portal for the purpose of payments. The MKAN Finance WhatsApp platform has been an interactive avenue to respond to members' demands. However, the Maal team responds to members' individual requests and demands. This does not only ensure that members are well educated on discharge of their financial obligations, but also makes them confident with the use of the Maal payment platforms.

Provision of Information Requested from Sadr MKAN: The respected Sadr Sahib on July 3rd 2023, requested that the Maal department provide the following:

- a. Number of Chanda Majlis payers from November 2022 till May 2023;
- b. Top 20 Chanda Majlis payer;
- c. Tajneed of members per Ilaqaat;
- d. Flier design for statutory funds; and
- e. Trend analysis of Chanda Majlis performance.

The above information were actualized and reported on July 6th, 2023.

Implementation of Single Sign-On (SSO) on the Maal Portal: Recent development has met with the Tajneed portal one of which is the Single sign-on (SSO) authentication - an identification method that enables users to log in to multiple applications and websites with one set of credentials. The Tajneed team has launched the new Tajneed admin portal for Qaideen and Nazimeen Tajneed to manage the Tajneed of members within their jurisdiction. Individual members can also personally manage their information using the new My Tajneed Portal. The objective is to enable members use a single password for all Majlis portals.

The Maal department communicated the Sadr Sahib's directive for members to participate in the migration process. To achieve this, members were enjoined to visit the My Tajneed portal via <http://my-tajneed.khuddam.ng> to reset/update their password from password123 to their preferred Single Sign-on (SSO) password. The password123 that was in use for signing-in to the Maal portal was replaced by the preferred SSO password. A window of one week was given to members to get onboarded for the implementation, while Sunday 6th August 2023 was communicated as the effective date.

Activation of Maalify on App Store: Since the introduction of the Majlis electronic payment platform, the Maal portal and Android version of Maalify have been the platforms available for members. iOS users usually use the Maal portal for Chnada payment purpose. In lieu of this, the need to onboard Maalify on App Store was conceived and realized. After several efforts from the concerned stakeholders, the Maalify iOS was finally approved and set up on App Store on the 16th of August 2023. By implication, members who use iOS-enabled devices can now make payments with the Maalify iOS. The Maalify iOS which can be installed on the App Store via <https://apps.apple.com/ng/app/maalify/id6461532539> is compatible with iPhone and iPod touch iOS 10.0 or later. Also, the use of the Maalify iOS is in line with the existing Maal portal procedures and development.

Engagement of MKAN Lagos Amila, MKAN Kano Ilaqa and Ogun Ilaqa Nazim Maal on use of Maal Portal and New development: The Amila members of Lagos Ilaqa received the Muhtamin Maal, Bro Habeebllah Onifade at the Atfal Ijtema of Lagos Ilaqa held between August 6th and 8th 2023 at Ahmadiyya Science College Ijede, where he enlightened members on the use of Maal portal and gave a step-by-step procedure on the activation of SSO on Maal portal and password reset.

In the same vein, the Naib Muhtamin Maal Bro Yusuf Salaam had a virtual train the trainer session with a member of Kano Ilaqa on April 28, 2023 on the use of Maal portal. Kano Ilaqa Qaid placed the request to the Maal department in lieu of the Ilaqa's workshop where members would be trained and engaged on individual and bulk payment processing on the Maal portal. Prior to this, the Muhtamin Maal also had a one-on-one session with the Nazim Maal Ogun Ilaqa Bro Sodiq Adeniran on the nitty-gritty of Maal portal on April 23 2023.

Preparation of 2022/2023 Accounts & Proposed Budget for 2023/2024: The Maal department has requested all department heads of the MKAN Aamila Mulk to propose the income and expenditure for their respective offices for the next MKAN financial year. However, 14 out of 17 departments have submitted the proposed budget as requested.

In readiness for the next MKAN Year 2023/2024, the books of account for the concluding year are being closed. Sequel to this, the Maal department has prepared the SOFP, gotten the Bank Statements handy and concluded the Statement of Income and Expenditure; these have been provided to the office of the Muhasib upon request.

Proposal on Review of Chanda Majlis Operation 180 to 250, Reservation of Chanda Majlis Retention of Jama'at Staff at the Mulk & MGQS on the Maal Portal: Following the resolution of the MKAN management meeting held on 23 July 2023 on the above heading, the Sadr Sahib at the August Mulk Meeting unveiled the position of the management to reserve the right to keep Chanda Majlis retention of MKAN members working with the Jamaat at the Mulk level for members' understanding and consideration. Qaideen have always agitated for the distribution of such retention accordingly.

Another issue discussed at the management meeting is the review of operation 180 on Chanda Majlis to operation 250 which becomes pertinent and realistic with the current situation. This was also communicated by the Muhtamin Maal at the August Mulk meeting with the approval of the Sadr Sahib. Below is the summary of the existing and proposed amount.

Existing Operation 180: Land and Building – 100, Welfare – 30, Vehicle – 10, Scholarship – 10, Tabligh – 10, Sport - 10, Taalim - 10T

Proposed Operation 250: Land and Building – 100, Welfare – 50, Vehicle – 30, Scholarship – 30, Tabligh – 20, Sport - 10, Taalim - 10

In addition to the proposed review, MGQS will feature as a voluntary donation field on the Maal portal to generate funds for the Mirza Ghulam Qadir Shaheed IT Lab and Centre, Nigeria.

The above proposals have passed the Mulk level and would be proposed at the Shoora for final deliberation and approval.

Efforts on Update of Signatories to Accounts: Sequel to the changes in the MKAN Aamila Mulk for 2022/2023 MKAN Year, there arose the need to update signatories to the MKAN Bank accounts. The Maal department after several efforts have updated these bank details and signatories to the account, while a few updates are under conclusion.

Recommendation

One of the objectives of setting up the Maal portal is to ensure seamless payment process and proper payment record keeping. Hence, Ilaqaat and Dil'aat should educate and encourage members to interact with the Maal portal, make payment and get acquainted with it. Bulk payment and remittance should be decentralized and limited to Muqameen to increase compliance and avoid late remittance and error in payment due to bulky transactions being logged at the Dil'a and Ilaqa level. Rather, Dil'aat and Ilaqaat should take up the duty of coordinating and monitoring the level of compliance and performance of their members and respective Muqameen in this regard.

However, we can not rule out exceptional situations that may require Dil'aat and Ilaqaat to log and remit payment, but this should be minimized as much as possible.

Conclusion

With a high level of humility, the activities of the Maal department are neither limited to nor exhaustive of the above headings. Rather, we have only selected those activities considered worthy of report for the purpose of simplicity and conciseness.

Synchronization of Data from National Tajneed to MKAN Tajneed Portal

In pursuit of the directives provided by His Holiness during the Mulaqat on January 2nd 2022, we successfully accomplished the synchronization of data from the National Tajneed, ensuring consistent and accurate counts of the Majlis within the MKAN Tajneed portal. This achievement enhances our ability to maintain uniformity in our records.

Data Mapping from Old MKAN Tajneed Portal to Data from the National Central Tajneed Portal

We efficiently mapped data from the previous MKAN Tajneed portal to the new National Central Tajneed portal. This process facilitated the seamless transition of essential records, contributing to the improved management of our membership data.

Development of E-card Portal for Production of Digital ID Cards

As part of our commitment to modernizing our services, we developed an E-card portal designed to create and manage digital ID cards for MKAN members. This initiative enhances convenience and accessibility for our members while streamlining our identification processes.

Implementation of Single Sign-On (SSO)

We successfully implemented Single Sign-On (SSO) functionality, utilizing the MKAN Tajneed system as the authoritative source for user authentication. This achievement has unified user access across various MKAN platforms, including the Maalify app, Maal Portal, Report Portal, and future systems. Our SSO solution is currently operational and adaptable for future system integrations.

These accomplishments reflect our commitment to efficiency, data accuracy, and improved member services within the MKAN community. We look forward to further advancements and opportunities in the coming year.

Recommendation

Continue to create awareness on the need for members to update their data via their respective Jamaat president or Tajneed office on the National Central Tajneed system.

3. Create awareness on the membership number as unique means of identification

Time-to-time awareness should be created so all MKAN members understand what the membership number stands for.

In conclusion, the Tajneed Department has made significant strides in the management and maintenance of membership records during the year. Introduction:

With the special guidance of our beloved Huzoor, Hazrat Mirza Masroor Ahmad (ATBA) and his Holiness Instruction to activate the Nizame-Jama`at. The MKAN Rishtanata department obeyed this instruction and worked closely with the National Rishtanata Department and Islahi committee to collectively focus and give rishtanata related issues the best outcome as instructed by his Holiness in order to uphold the institution of marriage.

The rishtanata department also got special direction and assistance from our respected Amir, Ahmadiyya Muslim Jama`at of Nigeria – Alhaji AbdulAzeez Alatoye and Sadr, Majlis Khudamul-Ahmadiyya, Nigeria – Bro. AbdulRoqeeb Akintunde Akinyemi.

Scope of Work:

1. Train and educate the members regarding the importance and sanctity of the institution of marriage with Islam, as well as importance of timely marriages and marrying within the Jama`at.
2. Make reformatory plans to guide khuddam on how to tackle marital issues.
3. Increase the interest and participation of khuddam in Rishtanata system of the jama`at.

Activities and Achievements for the year 2023:

Rishtanata seminars were held at National and Ilaqa levels to educate and appeal to our members the proper ways to choosing spouse, getting married, building and maintaining a noble family. They also revolve round dispute resolution and ways to curb marital challenges.

The Muhtamin Tarbiyah Rishtanata humbly represented the Sadr Majlis Khuddam in at least 16 Rishtanata resolution meeting summoned by the National Rishtanata committee. These meetings resulted but not limited to:

- Reversal of at least 3 divorce decision between couples
- Resolution of custody dispute between 4 couples
- Resolution of property distribution in line with Islam`s injunction between 2 families
- Sadly, we also painfully recorded several divorce cases after exhausting all lawful, and acceptable resolution avenues as guided by Islamic injunctions.

Further consultation, resolution and marital intervention still in progress with some other couples and families. All these activities and achievements were in collaboration with the National Rishtanata Department as well as the National Islahi Committee, in following the activation of nizame Jama`at.

Recommendation

Couples need to pray more, be open minded to discussing their challenges with the aim of helping each other through the troubling time.

Couples should make out time to unwind and not bottle-up emotions till it gets out of hand

The Rishtanata department needs a lot of database management and consolidation.

Conclusion.

It was observed that a whole lot of issues contributed to marital infractions as revealed by the meetings, complaints and resolutions deliberated upon. Some of them are:

1. Lack of trust between couples or dishonesty.
2. Issue of childlessness
3. Taking up of another wife by the husband (this could be a step taken rightly or wrongly by the husband which leads to further disagreement)
4. Lack of respect for each other, especially the husband in some cases.
5. Domestic violence, especially to the wife.
6. Unfair treatment of a certain wife in the case of polygamy.
7. Financial challenges.
8. Disregard for the sanctity institution of marriage especially when it involves a spouse travelling out of the country for work or greener Pasture while the wife or husband remains in Nigeria. This has caused a whole lot of divorce and marital collapse.
9. Undue family influence especially as noticed from mothers-in-law
10. The `Japa Syndrome`

We understand that marriage is a lifetime journey that reveals new peculiarities every day and it comes with the challenges as well. We always advice that couples should be determined to face their challenges and find solutions rather than abandon each other or abscond.

We pray that Almighty Allah forgive us and grant us the opportunity to do better and touch other areas which we are yet to cover in our mandate. There are still a lot to be done.

NAO MUBAEEN (NEW CONVERTS)

For the year, the department was able to gain 25 more new converts as reported from different Ilaqaat

The department also worked in collaboration with Tabligh and Tarbiyyat department in training the new converts. Alhamdulillah, the department is able to device her own scheme of work to train the new converts which centred on lessons from yasarnal Quran, Salat Muslim prayer book and prayers of Holy prophet.

The department plan to have the first nationwide ijtema of nau mubain but this was not achieved due to time constraints but insha'Allah we hope it shall come to pass in the new imarat year. Even if not nationwide probably regional wise, subject to the approval of the respected Sadr sahib.

65% of the Ilaqaat, 50% Dilaat and 45% Muqamaat reported following the National work plan.
